Tele Atlas

Inhabitants accessible

Major Road Network

The Major Road Network (MRNW) contains all the most important roads allowing to travel between neighbouring regions within a country.

Interconnecting Network (Major Road Network included)

The Interconnecting Network (ICNW) contains all connecting and cross-country roads allowing you to reach each municipality. This includes all major local roads.

Street Network (Interconnecting and Major Road Network included)

The Street Network (STNW) is the most exhaustive and complete network and is characterized by the representation of accessible roads. It contains residential roads, side-streets, cul-de-sacs and pedestrian zones in cities and towns.
