GT-31 / BGT-31 GPS Tracker

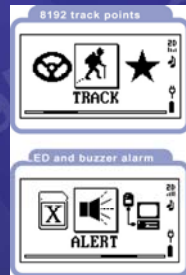

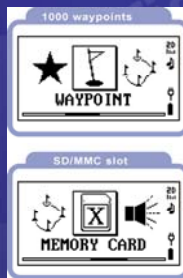

The GT-31/BGT-31 is a wonderfully compact, business card sized navigator, carefully designed to embody ergonomic principles. It will comfortably fit in the palm of your hand, mount on the handlebar of bike or motorcycle, and can even be worn on your arm. The stylish unit can stand on your desk as a funky gadget, or, more usefully, can be placed on the dashboard in your car.

The GT-31/BGT-31 can run for up to **46 hours** in power saving mode with the built-in lithium ion polymer rechargeable battery. It can be recharged while connected to car cigarette lighter, mains power outlet, or your PC/Notebook. When traveling where no car or mains power is available, you may purchase an AA battery adapter, or a rechargeable power bank (Solar charger) to extend the usage.

5

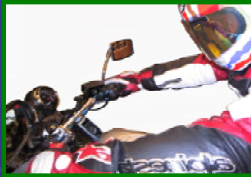

GT-31 / BGT-31

A state-of-the-art Thumb Stick allows for simple, one-handed operation. This rugged navigator is waterproof to IPX7 standards or, immersible in the water for 30 minutes at a depth of 1 meter, and, it floats!

GT-31 / BGT-31 is not only developed to handle outdoor activities, but also to handle various professional uses, such as speed, hazard area, zone alerts, altitude, or other alerts defined by the user. To store trip data for longer journeys, there is a SD / MMC slot for extra data storage capacity. And, it can be used as a Real-Time GPS Receiver by connecting to your PC / Notebook.

RMA (Return Merchandise Authorization) Policy

Merchandise sent for repair or replacement in or out of warranty, you must first obtain an RMA number by submitting RMA Request Form. The following information is required in order to complete your RMA request: company name, contact person, phone number and e-mail, customer ship-to address, product model number, serial number, and a brief description of the problem you are experiencing with the product you wish to return.

Upon Locosys acceptance and approval, you will promptly receive an RMA Number and return instructions. Do not return the defective product until you have received an RMA number. Locosys reserves the right to refuse shipments that do not have an RMA number. If you send your defective product without the RMA Request Form that filled in RMA number inside of the package, it will be returned to you unprocessed. **Before you ship the product to us, make sure to back up your data if possible. Locosys takes no responsibility for any data lost for returned products.**

In the event that you must have the replacement product immediately, a defective product will be replaced with either a repaired or refurbished unit with similar function. All returned products will be tested by our professional technician to verify the defect complained of. However, if the defect is not established, you are responsible to pay a testing fee plus shipping fee for NDF (No-Defect Found) products. Claims for loss or damage in shipment must be made to the carrier by the customer. For your protection, we strongly recommend you fully insure your return shipment if damage. Please use a carrier that is able to provide you with proof of delivery.

Warranty Coverage

All products are warranted for 12 months (some areas may extend to 14 months) and warranty coverage is effective from the date of purchases. Locosys warrants our products and its parts against defects in material and workmanship under normal use within the warranty period. For warranty returns, simply return it with an RMA number to us and we will repair it for free. However, the warranty does not apply to any product where damage has been caused by accident, abuse, misuse, natural disaster, any unauthorized disassembles, or modification. Customers will pay inbound shipping cost.

Out-of-Warranty Service

Out-of-warranty products, or damage not covered under the warranty will be charged to the customer. If the product fails forgoing conditions, we can usually repair it for very reasonable price. We'll provide a quote including shipping charge for repair. Repairs will be performed upon receipt of payment. Customers will prepay for shipping both ways, plus parts and labor.

Return Policy for International Order

In order to save Customs Import Duty and other levies, please fill in lower price at invoice and indicate in your shipping documents that products being shipped are for repair and to be returned. Locosys will not replace or exchange products. We only repair your products. Customers are responsible for all return shipping costs and customs duties.

Shipping Back Customer

Locosys will ship by FedEx or locally express deliver. If customer has any special delivery requirements, please inform to us previously.
